PROFESSIONAL SUMMARY

Finance and analytics professional with experience in Amazon Redshift, SQL, and ETL using Alteryx and Python. Deliver reporting solutions for TE Americas Automotive, including a 75% reduction in CoPQ preparation time. Additional data engineering experience through a personal GCP and dbt project.

TECHNICAL SKILLS

Data and automation: Amazon Redshift, SQL, Alteryx, Python, ETL/ELT, SAP scripting, Excel VBA.
Business intelligence: Power BI, Tableau.
Personal project: Python, BigQuery, Google Cloud Storage, dbt, Terraform, Docker, Git.

RELEVANT EXPERIENCE

TE Connectivity | Financial Analyst III

July 2025 - Present | Hermosillo, Sonora, Mexico

• **Reporting Ownership:** Own CoPQ reporting for Americas Automotive, leading development, maintenance, and continuous improvement of reporting and analysis processes.

• **Reporting Automation:** Reduced CoPQ preparation time by 75%, from two business days to four hours, with the remaining effort primarily focused on review.

• **Data Engineering:** Developed ETL solutions for CoPQ reporting to improve data quality and reliability while reducing manual data preparation.

• **Business Intelligence:** Translate stakeholder requirements into dashboards and reporting; automate recurring work using Python, SAP scripting, Excel macros, and Visualization Tools.

• **Financial Analysis:** Lead financial analysis and reporting for non-plant conversion cost operating spend across the Americas Automotive business, with a strong focus on P&L performance, cost visibility, and decision support.

• **Forecasting and Variance Analysis:** Prepare quarterly forecasts and provide weekly and month-end variance analysis, clearly explaining deviations versus plan, latest outlook, and prior periods to support management decision making.

• **Risks and Opportunities:** Identify, quantify, and communicate monthly Risks and Opportunities impacting operating expenses and overall financial performance, partnering with stakeholders to drive corrective actions and improve forecast accuracy.

• **Governance:** Serve as DOA Champion supporting policy compliance and approval controls for Automotive Americas.

TE Connectivity | Financial Analyst II

October 2023 - July 2025 | Hermosillo, Sonora, Mexico

• **Dashboard Development:** Developed a new Tableau dashboard to track capital expenditures and implemented ETL/ELT and automation solutions for reporting and recurring stakeholder processes.

• **Data Engineering:** Built Amazon Redshift tables as part of the CapEx Dashboard ETL using Alteryx and Python.

• **Reporting Frequency:** Enabled daily CapEx reporting, replacing a weekly process that required substantial manual effort and providing more frequent visibility into capital spending.

• **Capital Investment Management:** Managed fixed assets and capital projects for Hermosillo and Empalme, partnering with value stream managers on budgets, compliance, capitalization, and traceability.

• **Financial Reporting:** Presented monthly Construction in Process reporting to corporate, tracking spending, capitalization dates, and deviations; maintained SAP depreciation and cost center allocations.

DATA ENGINEERING PROJECT

IGDB Gaming Analytics | GCP and dbt

• **Data Ingestion:** Developed a Python ingestion pipeline for IGDB API data, with source files in Google Cloud Storage and raw data loaded into BigQuery for SQL transformation and analytics.

• **Data Modeling:** Built dbt staging and intermediate models, dimensions, bridge tables, facts, and analytics marts. The October 2026 snapshot included 370,081 games and 574,447 raw release records.

• **Data Quality:** Configured 67 dbt data quality tests covering uniqueness, nullability, relationships, and bridge combinations; the project includes source-to-fact lineage and mart reconciliation analysis.

• **Cloud Infrastructure:** Provisioned GCP storage, BigQuery datasets, and service-account permissions with Terraform; used Docker and Git for the development workflow.

ADDITIONAL EXPERIENCE

Comision de Vivienda del Estado de Sonora | Assistant Manager

January 2022 - October 2023 | Hermosillo, Sonora, Mexico

• **Program Management:** Managed the Aliados por la Vivienda program with INFONAVIT, coordinating recovered housing inventory and processes from initiation through sale.

• **Process Documentation:** Documented procedures and process flowcharts; tracked activity owners and status, and used geographic information systems to locate and verify properties.

H. Ayuntamiento de Hermosillo | Department Manager, Bienestar Social

June 2019 - September 2021 | Hermosillo, Sonora, Mexico

• **Inventory and Project Tracking:** Maintained departmental asset inventory and committee records; coordinated community committees to monitor infrastructure projects.

EDUCATION

Bachelor of Software Engineering - In Progress
Universidad Estatal de Sonora | August 2023 - Present

Bachelor of Finance
Universidad de Sonora | August 2017 - December 2021
